**About the James Beard Foundation (JBF):**

Founded in 1986, the James Beard Foundation celebrates, nurtures, and honors America's diverse culinary heritage through programs that educate and inspire. A cookbook author and teacher with an encyclopedic knowledge about

food, James Beard, who died in 1985, was a champion of American cuisine. He helped educate and mentor generations of professional chefs and food enthusiasts, instilling in them the value of wholesome, healthful, and delicious food. Today JBF continues in the same spirit by administering a number of diverse programs that include educational initiatives, food industry awards, scholarships for culinary students, publications, chef advocacy training, and thought-leader convening. The Foundation also maintains the historic James Beard House in New York City's Greenwich Village as a "performance space" for visiting chefs. In September of 2012, JBF launched the Diplomatic Culinary Partnership with the U.S. Department of State's Office of Protocol and helped create the American Chef Corps as a way to champion American chefs abroad, promote American food products, and foster an interest in American culinary culture and history through international programs and initiatives. One such project is the next world's fair, Expo Milano 2015, for which the James Beard Foundation is co-leading the effort for the State Department to design and produce the USA Pavilion, a global gathering of 147 countries addressing the challenges of how we will feed ourselves in the future. The pavilion, whose theme will be "American Food 2.0: United to Feed the Planet," will showcase America's contributions to global food security and gastronomy.
